

AMENDMENTS TO THE ABSTRACT:

Please insert the Abstract as follows after the claims pages (a separate sheet is also attached):

ABSTRACT OF THE DISCLOSURE

An inner salt of L-carnitine is prepared by reduction, with a suitable reducing

agent, of a compound of formula (I):

(1)

where X₁ and X₂,

which may be the same or different, are hydroxy, C₁-C₄ alkoxy, phenoxy, halogen, or X₁ and X₂, when taken together are an oxygen atom and the resulting compound is a derivative of succinic anhydride; Y is halogen, a mesyloxy or a tosyloxy group, and subsequent treatment with water, then with a base and then with trimethylamine.
